*common sense business funding*

To promote enterprise hubs supporting and encouraging the local SME community.

We provide funding for business entrepreneurs for start-ups and growth and acquisitions.

With over 45 years of working with business owners, we have wide reaching experience and expertise across many different businesses.

As Direct Lenders we offer:

- a rare common sense approach to business finance
- coupled with a sensible and old fashioned approach and attitude to client's requirements

Our commitment is:

- to supply the right finance for our clients to achieve their goals
- to take the time and trouble to understand and appreciate the specific requirements of our clients

We at AS Securities appreciate that you need:

- 1) a tailor-made individual service: which is our hallmark
- 2) that every business is different and therefore deserves to be looked at in its own right

SMEs are confronted unnecessarily with difficulties and hurdles

- SMEs are not sufficiently understood
- the market for SME finance is very fragmented
- businesspeople do not have the time to keep searching for finance

AS Securities make a difference because **WE UNDERSTAND** your plans and requirements

- our clients' requirements are assessed by the decision makers
- our clients don't suffer delays caused by junior advisors
- our clients don't miss opportunities due to delays by lending committees
- frustration at delays and an unexpected NO to the previous hope

REMEMBER

As DIRECT LENDERS you benefit from:

- our common sense approach and personal attention to funding
- a successful track record of 45 years
- prompt: assessment
- prompt: decisions
- prompt: completions

Finance can only be successfully provided if the lender bothers to diligently analyse and then address the individual requirements. If you have a business looking for the required funding, we'd be happy to talk through your thoughts.

Call me come and let's talk without obligation.
